

Manual Plate Sealer

MSP200

Description:

MSP200 Manual Plate Sealer is used for sealing a wide variety of microplates (Elisa, cell culture, PCR and deep-well plates) to store samples, prevent evaporation and minimize contamination. It is applicable for a variety of heat seals, meeting any laboratory application, including PCR, colorimetric, fluorescence, long term storage.

Features:

- ▶ Rapid heating (reaching 170°C in 300 seconds)
- ▶ Adjustable sealing temperature: 80°C ~200°C.
- ▶ Applicable for different micro plates and heat seals.
- ▶ Precise temperature, timing and pressure for consistent sealing.
- ▶ Unique drawer type sliding platform, easy access to micro plates.
- ▶ Economic; easy to operate.
- ▶ Over-heating protection device is included.

Technical Specifications:

Model	MSP200
Sealing temperature	80°C~200°C
Sealing time	0.5s~99s (within 10s, increment of 0.1s; above 10s, increment of 1s)
Temperature accuracy	±1°C
Conta plakası yüksekliği	9~48mm
Sealing interval	30s
Power	400W
Voltage	AC110V or 220V/50-60HZ
Dimension(mm)	324x216x353
Weight(kg)	11
